A BILL

To require regulation of wastes associated with the exploration, development, or production of crude oil, natural gas, or geothermal energy under the Solid Waste Disposal Act, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “CLEANER Act of 2015” or the “Closing Loopholes and Ending Arbitrary and Needless Evasion of Regulations Act of 2015”.

SEC. 2. REGULATION OF WASTES ASSOCIATED WITH THE EXPLORATION, DEVELOPMENT, OR PRODUCTION OF CRUDE OIL, NATURAL GAS, OR GEOTHERMAL ENERGY UNDER THE SOLID WASTE DISPOSAL ACT.

(a) IDENTIFICATION OR LISTING, AND REGULATION UNDER SUBTITLE C.—Paragraph (2) of section 3001(b) of the Solid Waste Disposal Act (42 U.S.C. 6921(b)) is amended to read as follows:

“(2) Not later than 1 year after the date of enactment of the CLEANER Act of 2015, the Administrator shall—

“(A) determine whether drilling fluids, produced waters, and other wastes associated with the exploration, development, or production of crude oil,
natural gas, or geothermal energy meet the criteria promulgated under this section for the identification or listing of hazardous waste;

“(B) identify or list as hazardous waste any drilling fluids, produced waters, or other wastes associated with the exploration, development, or production of crude oil, natural gas, or geothermal energy that the Administrator determines, pursuant to subparagraph (A), meet the criteria promulgated under this section for the identification or listing of hazardous waste; and

“(C) promulgate regulations under sections 3002, 3003, and 3004 for wastes identified or listed as hazardous waste pursuant to subparagraph (B), except that the Administrator is authorized to modify the requirements of such sections to take into account the special characteristics of such wastes so long as such modified requirements protect human health and the environment.”.

(b) Regulation Under Subtitle D.—Section 4010(c) of the Solid Waste Disposal Act (42 U.S.C. 6949a(c)) is amended by adding at the end the following new paragraph:

“(7) DRILLING FLUIDS, PRODUCED WATERS, AND OTHER WASTES ASSOCIATED WITH THE EXPLO-
RATION, DEVELOPMENT, OR PRODUCTION OF CRUDE OIL, NATURAL GAS, OR GEOTHERMAL ENERGY.—Not later than 1 year after the date of enactment of the CLEANER Act of 2015, the Administrator shall promulgate revisions of the criteria promulgated under section 4004(a) and under section 1008(a)(3) for facilities that may receive drilling fluids, produced waters, or other wastes associated with the exploration, development, or production of crude oil, natural gas, or geothermal energy, that are not identified or listed as hazardous waste pursuant to section 3001(b)(2). The criteria shall be those necessary to protect human health and the environment and may take into account the practicable capability of such facilities. At a minimum such revisions for facilities potentially receiving such wastes should require ground water monitoring as necessary to detect contamination, establish criteria for the acceptable location of new or existing facilities, and provide for corrective action and financial assurance as appropriate.”.
