THE SABINE-NECHES WATERWAY DEEPENING PROJECT
SOUTHEAST TEXAS

WE FUEL THE NATION
Current industry related sectors supported by the Sabine-Neches Waterway annually generate in the United States:

- **$32+ billion** in gross product
- **$18+ billion** in personal income
- **$3.4+ billion** in Federal taxes
- More than **288,000** permanent jobs

MAINTAINING MOMENTUM
The waterway has not been improved since 1962 – more than 50 years ago. We must invest now to ensure this economic engine maintains its momentum and the United States continues to enjoy the benefits.

Deepening the Waterway from 40 to 48 feet will allow larger ships to reach local ports and industrial facilities, thereby:

1. Meeting growing transportation needs
2. Continuing to attract new growth and development for Southeast Texas and the United States

A WIN-WIN
The project would create thousands of jobs, generate billions of dollars in economic impact, enhance trade infrastructure and position the Sabine-Neches Waterway to compete in the global marketplace.

The Sabine-Neches Waterway links to an extensive pipeline system.
THE SABINE-NECHES WATERWAY
AN AMERICAN ASSET

The Waterway Today

Nation’s No. 1 bulk liquid cargo waterway in the nation

Nation’s No. 1 refiner of jet fuel in the nation

Nation’s No. 1 commercial military onload port

Benefit to the nation:

$32+ billion in gross product annually

More than 288,000 permanent jobs in the U.S.

55% of nation’s strategic oil reserves

Refines a minimum of 13% of America’s daily fuel consumption, which is distributed on a pipeline system east of the Rockies

Positioned to become the largest LNG exporter in the country

100 million tons of cargo annually

Integral component of U.S. energy and military transportation infrastructure

The Waterway Tomorrow

During the 15-year construction phase:

$5 billion in business activity generated across the U.S.

Equivalent of more than 26,000 direct & indirect jobs across the country

$1.6 billion in personal income

$500 million in retail sales

Once completed, the waterway would generate an additional:

$57+ billion in gross product

$6+ billion in Federal taxes

$32+ billion in personal income

More than 176,000 new permanent jobs across the U.S.

Annual Economic Benefits (in billions)

Total expenditures $187
Gross product $57
Personal income $32
Retail sales $11

TOP 5 job sectors impacted by annual operations after deepening project (number of permanent jobs)

Retail
Nondurable Manufacturing
Transportation & warehousing
Construction
Health Services
